The MIFARE Conductor App

Fare Validation and Proof of Payment for Transit Agency Employees

The Sky Highways MIFARE* Conductor App is designed for use by Public Transit Agency fare collection and customer service employees. The application validates passenger stored value smartcards including tickets, passes, and stored value balance. The MIFARE Conductor application is compatible with existing contactless smartcards based upon MIFARE & DESFire technology.

Convenient & easy-to-use:

- Our software-only solution runs on a standard consumer smartphones.
- Quick (<300ms) “one-tap” use for payment confirmation.
 - Complete card history and payment records also available. No connection needed.

Cost effective

- Software-only solution runs on a wide range of consumer smartphones.
- Intuitive interface simplifies training and deployment to personnel.
- Designed to replace out-dated, proprietary hand-held smart card readers.
- Lower on going operating, maintenance & support costs.

5 Transit Agency Tools in 1 App

Conductor App provides the following capabilities:

- Instant Passenger smartcard ticket validation
- Live system service updates communicated to employees
 - o Transit personnel stay up-to-date with latest live transit system information
- System analytics information
 - o Agency receives live information from all field personnel.
 - o Web-hosed statistics on conductor and passenger activity.
- Passenger assistance tools
 - o Display local map, route, fare and schedule information to assist passengers/visitors.
- The application is customized and maintained for regional Transit agencies and includes dedicated support for training and on going support with regular updates.
